

Make it smart. Yale YDR50GA Smart Gate Lock

The fingerprint recognition is one of the highlights of YDR50GA. Other ways to use the lock include RFID key tag, PIN codes, Yale Home app, remote control, and mechanical key override. Using the Yale Home app on your smartphone is an easy way to use your fingerprint instead of a PIN code or an RFID key tag when your hands are full. With just a touch of your finger, the sensor quickly reads your fingerprint and automatically unlocks the gate and door simultaneously.

Trusted every day
